

`matrix::scale`

```
graph LR; A[matrix::scale] --> B[matrix::matrix]
```

A diagram illustrating a function call. On the left, a gray rectangular box contains the text `matrix::scale`. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text `matrix::matrix`. Both boxes have a thin black border.

`matrix::matrix`
